FREE FORDE BOOKS

Thanks to a generous grant from the 1521 Foundation, *Lutheran Quarterly* will supply free copies of books by Gerhard Forde to anyone who requests them. To recognize the centennial of his birth in 1927, we have created a Forde Folio of resources on our website, including many of his essays (full text and open access), comprehensive bibliographies of works by and about Forde, and a recorded LQ Lecture by Associate Editor Timothy Wengert. See www.lutheranquarterly.org under Forde.

For this program of free books, we have selected key titles to give away, one or two per recipient, whether hard copy or via Kindle. We want to convey Forde's way of articulating and proclaiming the gospel of grace and freedom to a new generation of readers and preachers. Those who already share this conviction are also encouraged to request books and give them away to new readers. As evident in the Forde Folio and in these books, Forde's "Radical Lutheranism" has shaped LQ's theological legacy. We hope that this offer will extend that gift, *gratis,* of course.

For print copies, email your name and postal address to Managing Editor Nicholas Hopman at nicholas.hopman@ptsem.edu. Choose one or two of these titles:

Where God Meets Man, Fiftieth Anniversary Edition, Fortress Press 1972 and 2021

Theology is for Proclamation, Fortress Press 1990

The Essential Forde, Distinguishing Law and Gospel, Fortress Press 2019

On Being a Theologian of the Cross, Eerdmans Publishing Company 1997

Or, for Kindle links, email your name and preferred email address to Adam Fairchild at adammfairchild@gmail.com. Choose one or two of these titles:

Where God Meets Man, Fiftieth Anniversary Edition, Fortress Press 1972 and 2021

Theology is for Proclamation, Fortress Press 1990

The Essential Forde, Distinguishing Law and Gospel, Fortress Press 2019

The Preached God, Eerdmans 2007 and now available from Fortress Press

This offer is for the upcoming centennial year only. Depending upon supply and demand, a new arrangement with further options may be announced during 2027.
